

**An ISO 9001 Conglomerate**

Dear Friend,

Team Sanghi & You have similar responsibilities.

**Right now you are doing your job:**

Providing food, clothing & shelter for your loved ones. More than these You also provide for Your children education, health & welfare .You do all these & more while we would sleep in your strong box, conserving our energy & gaining in value year by year.

**We have faith & confidence in you:**

It is out of your earnings that the cost of our up keeping would come. God willing nothing should happen to you. At times like this, When life is smooth & plain sailing, we may appear worthless to you. But some day, you and we have to change places.

**Responsibility:**

When you are laid to rest, We will awaken with a leap & a bound.... To continue & complete the job you had begun. We will Provide food, clothing & shelter that your loved ones will continue to need.

We will provide for the education that you would have wished to complete for your loved ones. The Welfare That Your family Needs Will NOT stop abruptly when They need it the most. When your hard work is done, Ours will just start to grow.

Through us your hands will carry on.

**Cost:**

Whenever you feel that price you will be paying For keeping us is burdensome, just remember that we will do more for you & your family than you could ever do for us.

You Continue Doing your part & We will do ours.....

Even though we would never be able to replace the "Emotional Loss" that your family would undergo, however we will wipe the tears from their eyes which you would have done had you been there In terms Of "ECONOMIC LOSS".
